OVERVIEW

The purpose of the Inspire Project Workshop is to teach students entrepreneurship and life skills.

The workshop is an entertaining and engaging presentation, designed to help students follow their dreams, exceed their expectations and ultimately transform themselves.

By the end of the workshop, students will be armed with everything they need to launch a low-risk passion based venture.

After 10 years of research, Ali has distilled how to achieve the above by teaching entrepreneurship via THREE key modules.

1. 'Start' - Understanding who you are and your passions. This is what forms your Vision, Goals and Idea.
2. 'Learn'- The knowledge, skills and mentors to help you grow and succeed.
3. 'Action' - Key actions and steps every entrepreneur needs to take. How to develop positive habits, How to test, validate and evaluate your approach..

Ultimately, this is a workshop about growth, overcoming fear and fulfilling ones potential. The lessons are valuable regardless if students decide to start a venture.

ALI TERAI

Ali migrated to Australia at the age of four, grew up in Melbourne's outer east and attended a low-SES school. For the majority of his schooling years, he was a "terrible" and rebellious student who performed poorly academically. The odds weren't stacked in his favour. In year 12 Ali changed his approach and started using the principles he shares in this workshop. Ali transformed and reinvented himself as a student, employee, entrepreneur and person, he is deeply passionate about teaching young people how to do the same.

INSPIRE PROJECT - WHO IT'S FOR?

The Inspire Workshop is best suited for Year 10, 11 and 12 students who have an interest in entrepreneurship, business, economics, social enterprises and technology.

Positive feedback most commonly comes from students who are:

- Interested in entrepreneurship, social enterprises or starting a business.
- Unsure about their future career path.
- Need some career advice and help with further study options.
- Struggling with motivation, focus, confidence or are worried about their academic ability.

The content has been refined and distilled from conducting 10 years of research and speaking to over 30,000 students.
